PROFESSIONAL EXPERIENCE

Enthusiastic third-year B.E. student specializing in Artificial Intelligence and Data Science at BGS College of Engineering and Technology. My academic focus is on developing expertise in data science, machine learning and artificial intelligence, with a dedicated focus on expanding Python programming skills for practical application in real-world projects.

Technical Skills

Python

C,C++,Java

Data Visualization

DBMS

SQL,Power BI

Data Warehousing

Projects

BOOK HAVEN

- Developed Book Haven, an online marketplace dedicated to the sustainable exchange of used books. The platform facilitates easy book listings for sellers and a smooth purchasing experience for buyers, reducing waste and promoting reuse.

ELECTRICAL UNIT MONITORING SYSTEM

- Engineered an IoT-based Electrical Unit Monitoring System using Raspberry pi and Python, incorporating camera integration, real-time power consumption data(voltage, current, power)is captured.

EDUCATION

BGS College Of Engineering And Technology | 2022-2026

Bachelor of Engineering in Artificial Intelligence and Data Science

- CGPA: 8.30(Upto 5th Sem)

St Joseph's Indian Composite PU College | 2020-2022

- GPA: 86.6%

Shree Bharathi Vidyalaya | 2009-2020

Indian Certificate of Secondary Education

- GPA: 85.3%

CERTIFICATES

Skillcraft Technology certification in Web Development

SkillCraft Technology

Artificial Intelligence& Data Science Primer Certification

Infosys Springboard

Python Foundation Certification

Infosys Springboard

Data Analyst 101: Excel Formulas & Functions

SimpliLearn

CO-CURRICULAR ACTIVITIES

- State Level Volleyball ,Throw ball Player
- Classical Dancer
- Athlete
